Eden Botanicals masterfully blends each proprietary essence oil using our exclusive amber resins and pure essential oils. More than simple perfume oils, our essence oils contain natural ingredients that work synergistically to promote subtle emotional qualities such as a sense of peace and calm.

Our essence oils are produced by hand and in small batches. We begin by extracting the oil from one of our *exclusive* crystallized essences, and then add pure essential oils and natural vitamin E. The process takes several weeks and the precious finished product is packaged in elegant 8.5 ml glass bottles.

In our continuing effort to offer the highest quality products, and to honor the health of our customers and the environment, Eden Botanicals is delighted to use only certified organic extraction and carrier oils¹, and several organic and wild grown essential oils. And unlike other companies that produce so-called natural oil and perfume blends, Eden Botanicals engages in full-disclosure labeling, so you'll know every ingredient in each product we manufacture.

Through our unique process, Eden Botanicals is able to produce natural body fragrances that are unparalleled in today's marketplace. Apply a drop or two to your pulse points as a natural perfume. Or add five to ten drops to your bath water or unscented massage oil for a total-body experience.

Essence Oils – *steeped in sensuality and timeless harmony*

Essence Oils contain high oleic acid sunflower oil¹, golden jojoba oil¹, natural vitamin E and:

TESTER DISPLAYS

We suggest that retail stores carrying our Crystallized Essences or Essence Oil Blends purchase one of our testers to display our products and to increase their sales.

All of our testers come with FREE products that, when sold, will offset your initial investment.

Testers are made of beautiful alderwood from the Pacific Northwest.

Each Crystallized Essence tester comes with a handsome story card holder that displays cards for each essence type.

We supply our customers with free essences and oils to refill their testers.

Please note: Tester displays are available only to retail stores who have set up a wholesale account with us.

In addition, stores must purchase a minimum of three of each product that is shown on the tester.
